REPORT OF THE COUNTY COMMISSIONERS.

To the Citizens of the County of Hillsborough :

Agreeably to the laws of the state of New Hampshire we submit the following report for consideration ; also the reports of the superintendent of the county farm and almshouse, chaplain and physician of the almshouse, county treasurer, clerk of the court, solicitor, sheriff, jailor, and auditors ; with a copy of the proceedings of the county convention :

Owing to the change of time, agreeably to the Public Statutes, regarding the annual reports of county officers, the last report of the commissioners of this county was made for the year ending April 30, 1891. Since making that report two seasons have passed. Statements regarding the county farm and crops are a part of the superintendent's report, which may be found, with other reports, in a supplementary report, which was necessary to cover the time from the making of our last report until the present time.

In preceding reports attention has been called to the condition of the county buildings at Wilton. Since then a committee from the county convention have visited them and made a thorough investigation of their condition. The report of that committee and the comments of the public press are so familiar to the citizens of this county that further remarks by us seem uncalled for.

During the season of 1891 the main building, as it is called, was thoroughly repaired on the inside, and a steel roof takes the place of shingle, and new windows the places of old ones. An annex was added to the same, 36 feet by 40 feet, a description of which may be found in the superintendent's report.

The fact remains, however, that new buildings with modern improvements are actually needed to meet the demands of the increasing number of inmates, and maintain a suitable house of correction.

It is a well-known fact that when we consider the large number of inmates, and their condition when they enter the institution, we are obliged to admit that the death rate is comparatively low, which is largely due to good nursing, constant vigilance in attention to cleanliness and the sanitary condition of the different departments. It is hoped that the representatives of the taxpayers of this county will calmly consider the location of the county farm and the condition of the buildings thereon, and take such action as the circumstances demand.

The superintendent and matron, Mr. and Mrs. Garvin, claim our thanks for their good management of the institution, and kindness to those under their care. The school connected with the institution indicates that much care has been taken in the selection of teachers, and there is no attempt at exaggeration when we claim that the school at the almshouse compares favorably with the schools in the county of Hillsborough.

Rev. T. O. Harlow and C. E. Higgins, M. D., chaplain and physician of the institution, have rendered faithful service in their official duties to the inmates.

The subordinate officers connected with the farm and almshouse have shown commendable effort to render good service to those by whom they are employed.

The present financial condition of the county, owing to the yearly increase of expenses exceeding the appropriation, is not as good as the commissioners could wish. The advisability of bonding the floating debt was suggested to the county convention, but other matters so engaged the attention of members that the interests of the county did not receive the attention that their importance seemed to demand. The aggregate expenses of the pauper and other departments coming immediately under the management of the commissioners are several hundred dollars less than the preceding years.

The citizens of the county are respectfully solicited to visit the county almshouse and farm, and personally inspect the location, condition, and management of the institution.

JAIL.

Owing to the large increase of criminals at the jail, and the time between the sittings of the grand jury, there is nece

an increase of expenses, which might perhaps be obviated by holding another criminal term of court during the year.

The affairs at this institution, under the efficient supervision of Capt. Wadsworth, are well managed. The sanitary condition is excellent; it is rarely that a case of sickness occurs among the prisoners.

Captain and Mrs. Wadsworth have our sincere thanks for their thorough discipline and good management of the institution.

JOHN F. CLOUGH,
BENJAMIN G. HERRICK,
WEBSTER C. BROWN,

County Commissioners.

Balance against the farm . . .		\$26,856.34

The number of weeks' board furnished to inmates was 16,054. The balance against the farm was \$26,856.34. Dividing that amount by the number of weeks' board, it will give \$1.67 and a fraction as the price per week for each person's board. Deducting from \$26,856.34 the sum of \$2,500 expended for permanent improvements, and it reduces the price of board to \$1.51 per week for each person.

SUPERINTENDENT'S REPORT.

To the Honorable Board of Commissioners for the County of Hillsborough :

GENTLEMEN, — It has been the custom for many years to appraise the property of the county farm during the month of March, and to make the annual report to the 30th of April.

This year the usual appraisal was taken and report made, but on account of a change in the law a second appraisal was made, to include the time between April 30 and the time of making this report, and which will be published with the annual report.

Of course much of the property appraised April 30 is contained in the second account of stock, and such is the case from year to year.

Since my last report to you, a new wing has been added to the main building, 38 x 40 feet in dimensions, two stories in height. The first floor is used for the kitchen, and is such an improvement on the old kitchen, which was dark, damp, inconvenient, and unhealthy, that the improvement seems all the more noticeable. The second story makes an addition to the men's hospital of eight rooms, and they are the most sunny and pleasant rooms in the building. No other buildings have been erected, but we have endeavored to keep all the buildings in as good condition as possible.

The crops for 1892, with exception of hay, were unusually good. About one half the potatoes, as usual, were lost by disease.

The water-supply for the different buildings is sufficient for daily use, but would be inadequate in case of fire.

The general health of the inmates has been good considering the age and condition of some of them.

We have a school that averages thirty or more children, and visitors tell us it compares favorably with schools of its grade elsewhere.

The needs and wants of the institution are so well known to you that I will not enumerate them. The "Wilton Journal" and "Hillsborough Messenger" have been sent to the institution without charge, and for this we cordially thank the editors. We desire to return our thanks to those who have contributed flowers and reading matter for the use of the inmates.

The subordinate officers of the institution have discharged their several duties in a manner which merits our commendation.

In closing, I desire to thank you, gentlemen, for the many kind words and friendly acts extended by you, and assure you they are appreciated.

Respectfully submitted.

J. GARVIN,
Superintendent.

PHYSICIAN'S REPORT.

To the Honorable Board of Commissioners for Hillsborough County:

GENTLEMEN,—It is with pleasure that I am able to inform you that the health of the inmates of the Hillsborough County Almshouse has been better since my last report than during any previous time since my connection with the institution.

The health of the children in the nursery, especially, has been much more satisfactory.

The number of deaths might seem excessive to one unacquainted with institutions of this kind, but when we consider the fact that with the exception of a part of the prisoners and children all those admitted are presumably enfeebled by disease, old age, or both, the death rate does not seem to be greater than might reasonably be expected.

That there are not more cases of sickness which could be attributed to the admittedly overcrowded and unsanitary condition of the institution is, in my opinion, very largely due to the strict rules of cleanliness so well observed throughout the various departments.

The large number of deaths from consumption is a matter well worthy of consideration and suggests the advisability of providing a separate ward for those so afflicted.

One of the very imperative needs of the institution is some provision for the better isolation of contagious disease.

I feel that too much credit cannot be given to the superintendent, matron, and various officers for their patient, kind, and efficient care of the sick.

Thanking you for your very courteous treatment, this report is submitted.

CHAPLAIN'S REPORT.

To the Honorable Board of Commissioners for Hillsborough County :

GENTLEMEN,— In making my report as chaplain of the institution I desire to say that I think the religious condition of the institution is as good as can be expected where so many classes and kinds of people mingle together.

It is hard for the religiously inclined to live a good Christian life surrounded by those who care little for such a life. The man or woman who, by reason of destitution of this world's goods and yet rich in the heavenly possessions, finding a comfortable home in which to spend the remaining years of life at the institution, is exposed to the coarse jokes, sneers, and oaths of the ones who by disobedience are meting out their just penalty under the law.

I have tried to be faithful in the discharge of my duties and in my way to improve the religious condition of the inmates. I think there are many who are grateful for a word of advice and encouragement spoken in love, and who try to profit by such assistance. There are those who love to hear songs of praise, to listen to God's word, and to unite their hearts in thanksgiving, adoration, and petition to Almighty God, our common Father and Benefactor.

To those who do not love such influences, we give the opportunity, and sow the seed, praying that they may be benefited and that the seed now sown may in the future bring forth harvest.

I think I may express my sincere thankfulness to the superintendent and matron who have kindly assisted me in the discharge of my duties, and to all other officers of the institution, to whom I am indebted for their courtesy.

Respectfully submitted.

REV. T. O. HARLOW,

Chaplain.

SOLICITOR'S REPORT.

To the Honorable Board of Commissioners for Hillsborough County :

GENTLEMEN,— I herewith submit my report as solicitor of Hillsborough county for the period from May 1, 1891, to October 1, 1892. During this time I have received no money belonging to the county, all fines and costs having been paid to the clerk of the supreme court.

The civil suit of the county against the town of Brookline to recover the amount paid by the county for the board of Catherine Rockwood at the asylum for the insane has been dismissed, it appearing that the said Catherine Rockwood was not a pauper and therefore the claim of the county against said town was not well founded.

There has been only one other civil case in which the county was a party, and that was a suit by Eugene G. Libby against the county to recover a small sum for the board and care of a pauper, and this suit will probably be adjusted by the county commissioners.

On the first day of May, A. D. 1891, there were on the criminal docket of this county seventeen criminal cases. To this number there have since been added by indictment 393, and by appeals from police and justice courts 34 more, making in all 427 cases upon the criminal docket in this county during the period from May 1, 1891, to October, 1892. These cases have been disposed of by trial and otherwise, with the exception of about eight cases which were continued at the September term, 1892, of the supreme court for this county.

ROBERT M. WALLACE,

OCTOBER 1, 1892.

Solicitor.

The convention met at the call of the chairman and was called to order by him in the Hall of Representatives at 1 o'clock in the afternoon. The report of the county commissioners for year ending 1891 was laid before the convention. The same board also recommended the amount necessary to defray county expenses for the years 1892 and 1893.

County Treasurer Edwin F. Jones then addressed the convention on behalf of the commissioners, explaining the increased expenses incurred in many directions, as also making such suggestions as he deemed advisable as to the indebtedness of the coun-

ty and the best method of floating the same at a reduced rate of interest.

On motion, it was voted to choose a committee of five to take into consideration the recommendation of the commissioners as well as other matters concerning the finances of the county. The following named representatives were elected to serve on the committee: George A. Wason, New Boston; Samuel W. Holman, Hillsborough; John W. Conner, Nashua; James L. Hardy, Wilton; John M. The following named representatives were elected to serve on the committee: G. A. Wason, New Boston; C. T. Lund, Nashua; J. G. Taggart, Goffstown; J. W. Hunt, Nashua; H. J. Hatch, Manchester; A. H. FEBRUARY 10, 1891.

Agreeably to previous arrangements, the committee of twelve named in previous report visited the Hillsborough County Farm at Wilton on February 14, the trip from Manchester to Nashua being made on a regular train, and from Nashua to East Wilton a special car was provided. In due time we arrived at Wilton, where we disembarked, taking conveyance in sleighs provided by Superintendent Garvin. Soon after arriving at the farm a formal meeting of this committee was held in the superintendent's office, the same being called to order by G. A. Wason of New Boston, when, upon motion, J. G. Taggart was elected clerk of special committee. The committee, with members of the press and invited guests, were then invited to partake of a very elaborate and substantial dinner, which was served with most excellent taste ; after doing ample justice to which, the buildings were all carefully examined in order to ascertain as correctly as possible their adaptation to the purposes for which they are used as well as to suggest any improvements or additions which would seem to be required. It was incidentally observed that cleanliness was a maxim with the matron and her assistants in all the departments which came under her supervision. The sanitary surroundings, owing to imperfect drainage and a still poorer sewerage system, seem to be, and was decided by the committee to be, very faulty.

A vote was then taken upon the advisability of changing the location of the county farm, elev-

en of the committee voting in the affirmative and one in the negative, with the understanding that it is deemed inexpedient to divide the county. Adjourned to meet at the call of the chairman of the county delegation.

¹ This section was passed by the house and senate, but was omitted from the engrossed bill. Such references are made to it in the engrossed bill that it is evident the legislature intended it should be a part of the law.
